Marion Zimmer Bradley (Starmont Reader's Guide) Rosemarie Arbur

This book is intended as a guide for those who want to know about the science fiction written by Marion Zimmer Bradley. It is not written for people who have written doctoral dissertations about science fiction nor for those who are about to, although both these groups may find here some fact, insight or other valuable thing not found elsewhere. This book is what the title says: a reader's guide. As I put it together, I followed the general format of all the other books in this series, so there are a chronology, and introductory chapter, two comprehensive bibliographies, and an index.
