Coring Operations: Procedures for Sampling and Analysis of Bottomhole and Sidewell Cores (Exlog Series of Petroleum Geology and Engineering Handbooks) EXLOG/Whittaker

This coring operations reference handbook is intended as a practical guide for the logging geologist to procedures, activities, and responsibilities required when bottomhole or sidewall coring is performed at the wellsite. Not all of the operations described are common practice in all logging units; however, familiarity with them is a necessary part of general exploration knowledge and professionalism. Chapter 1 discusses the concepts of porosity, permeability, and saturation, how these properties are determined in core analysis, and their significance in controlling reservoir performance. Chapter 2 deals with the various techniques used in coring. Chapter 3 explains the routine role of the logging geologist in core retrieval, sampling, and qualitative evaluation. Chapter 4 details operating procedures for quantitative wellsite core analysis equipment.

1 INTRODUCTION 1. 1 GENERAL 1. 2 QUANTITATIVE CORE ANALYSIS The primary purpose of coring is to obtain rock samples of a sufficient size to obtain estimates of critical reservoir properties.

From reader reviews:

Lawrence Elam:

Here thing why this particular Coring Operations: Procedures for Sampling and Analysis of Bottomhole and Sidewell Cores (Exlog Series of Petroleum Geology and Engineering Handbooks) are different and trustworthy to be yours. First of all looking at a book is good but it really depends in the content of the usb ports which is the content is as yummy as food or not. Coring Operations: Procedures for Sampling and Analysis of Bottomhole and Sidewell Cores (Exlog Series of Petroleum Geology and Engineering Handbooks) giving you information deeper including different ways, you can find any book out there but there is no book that similar with Coring Operations: Procedures for Sampling and Analysis of Bottomhole and Sidewell Cores (Exlog Series of Petroleum Geology and Engineering Handbooks). It gives you thrill reading journey, its open up your current eyes about the thing in which happened in the world which is perhaps can be happened around you. It is easy to bring everywhere like in park your car, café, or even in your approach home by train. If you are having difficulties in bringing the branded book maybe the form of Coring Operations: Procedures for Sampling and Analysis of Bottomhole and Sidewell Cores (Exlog Series of Petroleum Geology and Engineering Handbooks) in e-book can be your choice.

Rachel Addison:

Information is provisions for folks to get better life, information nowadays can get by anyone in everywhere. The information can be a understanding or any news even a problem. What people must be consider while those information which is within the former life are challenging to be find than now is taking seriously which one would work to believe or which one the particular resource are convinced. If you have the unstable resource then you buy it as your main information we will see huge disadvantage for you. All those possibilities will not happen within you if you take Coring Operations: Procedures for Sampling and Analysis of Bottomhole and Sidewell Cores (Exlog Series of Petroleum Geology and Engineering Handbooks) as the daily resource information.

Christine Knox:

Playing with family within a park, coming to see the sea world or hanging out with good friends is thing that usually you will have done when you have spare time, in that case why you don't try matter that really opposite from that. A single activity that make you not feeling tired but still relaxing, trilling like on roller coaster you have been ride on and with addition associated with. Even you love Coring Operations: Procedures for Sampling and Analysis of Bottomhole and Sidewell Cores (Exlog Series of Petroleum Geology and Engineering Handbooks), you are able to enjoy both. It is great combination right, you still desire to miss it? What kind of hang type is it? Oh can occur its mind hangout men. What? Still don't understand it, oh come on its known as reading friends.

Douglas Elem:

Many people spending their time by playing outside having friends, fun activity using family or just watching TV 24 hours a day. You can have new activity to invest your whole day by looking at a book. Ugh, do you consider reading a book can definitely hard because you have to take the book everywhere? It alright you can have the e-book, bringing everywhere you want in your Mobile phone. Like Coring Operations: Procedures for Sampling and Analysis of Bottomhole and Sidewell Cores (Exlog Series of Petroleum Geology and Engineering Handbooks) which is having the e-book version. So , why not try out this book? Let's find.
