## **Psychological Basis of Psychiatry (MRCPsy Study Guides) M. S. Thambirajah MD**

Highly Commended (Mental Health category), BMA Awards 2005. A concise textbook of psychology for trainee psychiatrists preparing for examinations. A concise textbook concentrating on what the trainee psychiatrist needs to know about psychology - trainees at the moment tend to be unhappy with currently available books. Psychiatric curriculum now lays more emphasis on psychology, psychological formulations and psychotherapeutic interventions, thus increasing the need for a suitable book. Links normal psychological functioning with abnormal psychology/psychopathology, and stresses applications to clinical practice. Written by a psychiatrist with extensive experience of what psychiatry trainees need, rather than by a psychologist as with most of the competition.
