Solving the Greatest Mystery of Our time : The Mayan Calendar Carl Johan Calleman

This book reflects one of the greatest changes in human thinking ever to have taken place, one that unifies Western and Eastern thinking. The Mayan Calendar provides a common perspective on the emergence of all human religions and schools of thought. As the true meaning of the Calendar is solved it becomes clear that we are living in a creation that evolves according to a pre-set schedule provided by the Mayan Calendar, aiming at completion on October 28, 2011. What makes this book unique and powerful is that it is based on the established factual basis of modern science. It presents a perspective that not only unifies all the modern branches of science but unifies science with religion as well. It scientifically proves the existence of a cosmic plan in whose evolution we are all taking part, and also of God her/himself. The message of The Mayan Calendar is crucial to everyone alive: human life has a higher purpose and we may all live so as to fulfill this.
