Linear Algebraic Groups (Graduate Texts in Mathematics)

Armand Borel

Linear Algebraic Groups (Graduate Texts in Mathematics) Armand Borel

This revised, enlarged edition of Linear Algebraic Groups (1969) starts by presenting foundational material on algebraic groups, Lie algebras, transformation spaces, and quotient spaces. It then turns to solvable groups, general properties of linear algebraic groups, and Chevalley's structure theory of reductive groups over algebraically closed groundfields. It closes with a focus on rationality questions over non-algebraically closed fields.

From reader reviews:

Leticia Cantrell:

What do you about book? It is not important with you? Or just adding material when you require something to explain what you problem? How about your time? Or are you busy person? If you don't have spare time to do others business, it is make one feel bored faster. And you have spare time? What did you do? Every individual has many questions above. They should answer that question since just their can do that. It said that about e-book. Book is familiar in each person. Yes, it is right. Because start from on kindergarten until university need this Linear Algebraic Groups (Graduate Texts in Mathematics) to read.

Marvin Seto:

The particular book Linear Algebraic Groups (Graduate Texts in Mathematics) has a lot associated with on it. So when you make sure to read this book you can get a lot of benefit. The book was compiled by the very famous author. The writer makes some research ahead of write this book. That book very easy to read you can obtain the point easily after perusing this book.

Minerva Garrison:

Do you have something that you want such as book? The reserve lovers usually prefer to choose book like comic, quick story and the biggest an example may be novel. Now, why not attempting Linear Algebraic Groups (Graduate Texts in Mathematics) that give your satisfaction preference will be satisfied simply by reading this book. Reading practice all over the world can be said as the way for people to know world far better then how they react towards the world. It can't be mentioned constantly that reading addiction only for the geeky person but for all of you who wants to end up being success person. So , for all you who want to start examining as your good habit, you may pick Linear Algebraic Groups (Graduate Texts in Mathematics) become your current starter.

Elaine Sitz:

With this era which is the greater particular person or who has ability to do something more are more special than other. Do you want to become one among it? It is just simple method to have that. What you are related is just spending your time not much but quite enough to possess a look at some books. On the list of books in the top list in your reading list is definitely Linear Algebraic Groups (Graduate Texts in Mathematics). This book which is qualified as The Hungry Hillside can get you closer in growing to be precious person. By looking way up and review this publication you can get many advantages.
