From Mathematics to Philosophy (Routledge Revivals) Hao Wang

First published in 1974. Despite the tendency of contemporary analytic philosophy to put logic and mathematics at a central position, the author argues it failed to appreciate or account for their rich content. Through discussions of such mathematical concepts as number, the continuum, set, proof and mechanical procedure, the author provides an introduction to the philosophy of mathematics and an internal criticism of the then current academic philosophy. The material presented is also an illustration of a new, more general method of approach called substantial factualism which the author asserts allows for the development of a more comprehensive philosophical position by not trivialising or distorting substantial facts of human knowledge.

From reader reviews:

Bill Flores:

Reading a publication tends to be new life style in this era globalization. With reading you can get a lot of information that will give you benefit in your life. With book everyone in this world may share their idea. Ebooks can also inspire a lot of people. A great deal of author can inspire their particular reader with their story or their experience. Not only the story that share in the books. But also they write about the data about something that you need case in point. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book that you can get now. The authors nowadays always try to improve their ability in writing, they also doing some analysis before they write with their book. One of them is this From Mathematics to Philosophy (Routledge Revivals).

Fran Short:

Spent a free the perfect time to be fun activity to try and do! A lot of people spent their free time with their family, or their very own friends. Usually they undertaking activity like watching television, likely to beach, or picnic in the park. They actually doing same every week. Do you feel it? Will you something different to fill your free time/ holiday? Could possibly be reading a book may be option to fill your free time/ holiday. The first thing that you will ask may be what kinds of reserve that you should read. If you want to test look for book, may be the e-book untitled From Mathematics to Philosophy (Routledge Revivals) can be fine book to read. May be it may be best activity to you.

Ellis Dunn:

Are you kind of hectic person, only have 10 as well as 15 minute in your time to upgrading your mind skill or thinking skill possibly analytical thinking? Then you are having problem with the book when compared with can satisfy your short space of time to read it because all this time you only find e-book that need more time to be learn. From Mathematics to Philosophy (Routledge Revivals) can be your answer given it can be read by you actually who have those short extra time problems.

Walter Knight:

You may spend your free time to see this book this reserve. This From Mathematics to Philosophy (Routledge Revivals) is simple to deliver you can read it in the recreation area, in the beach, train as well as soon. If you did not include much space to bring the printed book, you can buy typically the e-book. It is make you easier to read it. You can save typically the book in your smart phone. And so there are a lot of benefits that you will get when one buys this book.
