Find clear, concise coverage of the essential concepts, procedures, and technology of critical care nursing! **Introduction to Critical Care Nursing, 7th Edition** helps nurses provide safe, effective, patient-centered care in a variety of critical care settings. Evidence-based coverage includes realistic case studies and incorporates the latest advances in critical care. Disorders are conveniently organized by body system or special situation, and nursing management chapters include quick-reference nursing care plans. Designed for one-semester courses, this easy-to-understand textbook will help your students develop clinical reasoning skills and succeed in today's highly complex critical care environments.

- **An emphasis on QSEN competencies** enables you to gain the knowledge, skills, and attitudes needed to provide safe, high-quality health care in a variety of high acuity, progressive, and critical care settings.
- **Evidence-Based Practice boxes** illustrate how research evidence is used to address problems in patient care and includes nursing implications plus AACN's new system for Levels of Evidence: A, B, C, D, E, and M.
- **Case studies** challenge you to apply concepts to the real world, testing your critical thinking skills by asking questions about patient-specific cases with lab results.
- **Nursing Care Plans** prepare you for clinical practice by describing patient diagnoses and/or problems, patient outcomes, and nursing assessments and interventions with rationales.
- **Nearly 400 full-color photographs and illustrations** visually clarify key concepts for better understanding.
- **Clinical Alerts highlight potential problems and concerns, to improve patient safety and clinical care.**
- **Laboratory Alerts emphasize the importance of laboratory test results to critical care nursing.**
- **Pharmacology tables** show the actions/usages, indications, dosages/routes, side effects, and nursing implications of drugs commonly used in high acuity, progressive, and critical care settings.
- **NEW! UPDATED content** is included throughout, especially in topics such as nutrition, feeding tube connectors, the new PAD guidelines for pain management, Rapid Response Teams, sepsis guidelines, and valvular disorders and TAVR.
- **NEW! Critical Reasoning Activities** are interspersed throughout the text, to better promote development of clinical nursing judgment.
- **NEW! Universal Collaborative Care Plan for the Critically Ill Patient addresses important aspects of collaborative/interprofessional care that apply to virtually all critically ill patients.**
- **NEW! Increased coverage of infection control** addresses the QSEN safety competency and helps provide patient protection against the growing threat of drug-resistant infections.
- **NEW! Coverage of cardiac assistive devices** includes ECMO and other small, portable, bedside cardiac assistive devices.
- **NEW! Refocused hemodynamic monitoring content** emphasizes the noninvasive methods of hemodynamic monitoring that are becoming more prominent.
- **NEW! Increased coverage of palliative care** supports the book's strong focus on end-of-life care.
- **Revised Organ Donation chapter** is refocused to help nurses provide holistic care to families facing difficult end-of-life choices regarding organ donation, rather than on the details of transplantation procedures.

- **NEW *Patient Problems* focus** shifts the book's emphasis from nursing diagnoses to the interprofessional care of patient problems.
