When reptiles and amphibians shed their skin, we can clearly see the process. These are not the only animals that shed. Did you know that humans shed too? We cannot always see when our skin sheds, but it happens all the time. This engaging book illustrates the stages that an iguana goes through when shedding its skin. Featuring vivid photographs with clear labels correlated with each photo, children will be engaged and use oral language skills as they interpret each photo and describe what they are seeing.

### **About Shell Education**

Rachelle Cracchiolo started the company with a friend and fellow teacher. Both were eager to share their ideas and passion for education with other classroom leaders. What began as a hobby, selling lesson plans to local stores, became a part-time job after a full day of teaching, and eventually blossomed into Teacher Created Materials. The story continued in 2004 with the launch of Shell Education and the introduction of professional resources and classroom application books designed to support Teacher Created Materials curriculum resources. Today, Teacher Created Materials and Shell Education are two of the most recognized names in educational publishing around the world.
