Gary Numan, an Annotated Scrapbook: 1977-1981 Paul Sutton

Gary Numan was one of the first pop artists to place equal emphasis on image and sound, a true Warholian artist who advanced on Andy's light and sound experiments with The Velvet Underground, by bringing a real grandeur to live performances, and by changing the music of the world with a single finger. This book collects together articles from England, America, Japan, Spain, Italy and Germany, to give a clear picture of the first years of fame of the modest young Englishman, and which show, for example, that Numan's 1979 album *Replicas* is the missing link between the novel *Do Androids Dream of Electric Sheep?* and the film *Blade Runner*.
