The goal of this book is to close the gap between high technology and accessibility for people having lost their independence due to the loss of physical and/or cognitive capabilities. Robots and mechatronic devices bring the opportunity to improve the autonomy of disabled people and facilitate their social and professional integration by assisting them to perform daily living tasks. Technical topics of interest include, but are not limited to: Communication and learning applications in SCI an CP, Interface and Internet-based designs, Issues in human-machine interaction, Personal robotics, Hardware and control, Evaluation methods, Clinical experience, Orthotics and prosthetics, Robotics for older adults, Service robotics, Movement physiology and motor control.

From reader reviews:

Brian Street:

Have you spare time for the day? What do you do when you have a lot more or little spare time? Sure, you can choose the suitable activity to get spend your time. Any person spent their spare time to take a stroll, shopping, or went to the actual Mall. How about open or even read a book allowed Integration of Assistive Technology in the Information Age: Icorr'2001: 7th International Conference on Rehabilitation Robotics (Assistive Technology Research Series,)? Maybe it is being best activity for you. You already know beside you can spend your time with your favorite's book, you can cleverer than before. Do you agree with its opinion or you have different opinion?

Peter Holmes:

A lot of people always spent their own free time to vacation or maybe go to the outside with them family or their friend. Are you aware? Many a lot of people spent that they free time just watching TV, or perhaps playing video games all day long. If you wish to try to find a new activity that's look different you can read some sort of book. It is really fun to suit your needs. If you enjoy the book that you read you can spent the whole day to reading a guide. The book Integration of Assistive Technology in the Information Age: Icorr'2001: 7th International Conference on Rehabilitation Robotics (Assistive Technology Research Series,) it is quite good to read. There are a lot of people that recommended this book. These people were enjoying reading this book. In the event you did not have enough space to bring this book you can buy typically the e-book. You can m0ore quickly to read this book out of your smart phone. The price is not very costly but this book features high quality.

Floyd Alling:

Reading can called head hangout, why? Because if you are reading a book mainly book entitled Integration of Assistive Technology in the Information Age: Icorr'2001: 7th International Conference on Rehabilitation Robotics (Assistive Technology Research Series,) your brain will drift away trough every dimension, wandering in each and every aspect that maybe not known for but surely might be your mind friends. Imaging each and every word written in a reserve then become one contact form conclusion and explanation that will maybe you never get ahead of. The Integration of Assistive Technology in the Information Age: Icorr'2001: 7th International Conference on Rehabilitation Robotics (Assistive Technology Research Series,) giving you another experience more than blown away your thoughts but also giving you useful data for your better life on this era. So now let us demonstrate the relaxing pattern at this point is your body and mind will probably be pleased when you are finished studying it, like winning a casino game. Do you want to try this extraordinary investing spare time activity?

Thomas Morgan:

Would you one of the book lovers? If yes, do you ever feeling doubt when you find yourself in the book store? Try to pick one book that you never know the inside because don't judge book by its handle may doesn't work is difficult job because you are frightened that the inside maybe not seeing that fantastic as in the outside appear likes. Maybe you answer could be Integration of Assistive Technology in the Information Age: Icorr'2001: 7th International Conference on Rehabilitation Robotics (Assistive Technology Research Series,) why because the amazing cover that make you consider in regards to the content will not disappoint you actually. The inside or content is fantastic as the outside or maybe cover. Your reading 6th sense will directly make suggestions to pick up this book.
