Reducing the Vulnerability of Moldova's Agricultural Systems to Climate Change: Impact Assessment and Adaptation Options (World Bank Studies) William R. Sutton, Jitendra P. Srivastava, James E. Neumann, Ana Iglesias, Brent B. Boehlert

Agriculture is one of the most climate-sensitive of all economic sectors. In many countries, such as in Moldova, the risks of climate change are an immediate and fundamental problem because the majority of the rural population depends either directly or indirectly on agriculture for their livelihoods.

The risks of climate change to agriculture in Moldova cannot be effectively dealt with?and the opportunities cannot be effectively exploited?without a clear plan for aligning agricultural policies with climate change, developing the capabilities of key agricultural institutions, and making needed investments in infrastructure, support services and on-farm improvements. Developing such a plan ideally involves a combination of high-quality quantitative analysis, consultation with key stakeholders, particularly farmers and local agricultural experts, and investments in both human and physical capital. The experience of Moldova, highlighted in this work, shows that it is possible to develop a plan to meet these objectives?one that is comprehensive and empirically driven as well as consultative and quick to develop.

The approach of this study is predicated on strong country ownership and participation, and is defined by its emphasis on “win-win” or “no regrets” solutions to the multiple challenges posed by climate change for farmers in Moldova. The solutions are measures that increase resilience to future climate change, boost current productivity despite the greater climate variability already occurring, and limit greenhouse gas emissions.

Reducing The Vulnerability of Moldova's Agricultural Systems to Climate Change: Impact Assessment and Adaptation Options applies this approach to Moldova with the goal of helping the country mainstream climate change adaptation into its agricultural policies, programs, and investments. The study projects impacts of climate change on agriculture across Moldova’s three agro-ecological areas through forecast variations in temperature and rainfall patterns so crucial to farming. It offers a map for navigating the risks and realizing the opportunities, outlined through a series of consultations with local farmers. A detailed explanation of the approach is provided for those who would like to implement similar programs in other countries of Europe, Central Asia, or anywhere else in the world.

This is one of four country studies that were produced under the World Bank’s program, “Reducing Vulnerability to Climate Change in European and Central Asian Agricultural Systems”. The other countries included in this series are Albania, FYR Macedonia, and Uzbekistan. The results from the four studies are consolidated in the book *Looking Beyond the Horizon: How Climate Change Impacts and Adaptation Responses Will Reshape Agriculture in Eastern Europe and Central Asia* website..

From reader reviews:

Hazel Reinoso:

The book Reducing the Vulnerability of Moldova's Agricultural Systems to Climate Change: Impact Assessment and Adaptation Options (World Bank Studies) make one feel enjoy for your spare time. You can use to make your capable more increase. Book can being your best friend when you getting anxiety or having big problem using your subject. If you can make looking at a book Reducing the Vulnerability of Moldova's Agricultural Systems to Climate Change: Impact Assessment and Adaptation Options (World Bank Studies) to be your habit, you can get a lot more advantages, like add your capable, increase your knowledge about some or all subjects. You could know everything if you like open up and read a guide Reducing the Vulnerability of Moldova's Agricultural Systems to Climate Change: Impact Assessment and Adaptation Options (World Bank Studies). Kinds of book are a lot of. It means that, science book or encyclopedia or other individuals. So , how do you think about this guide?

James Ensor:

The actual book Reducing the Vulnerability of Moldova's Agricultural Systems to Climate Change: Impact Assessment and Adaptation Options (World Bank Studies) will bring you to definitely the new experience of reading some sort of book. The author style to clarify the idea is very unique. In the event you try to find new book to see, this book very suited to you. The book Reducing the Vulnerability of Moldova's Agricultural Systems to Climate Change: Impact Assessment and Adaptation Options (World Bank Studies) is much recommended to you to see. You can also get the e-book in the official web site, so you can quicker to read the book.

Sandra Lynn:

A lot of people always spent their own free time to vacation or even go to the outside with them friends and family or their friend. Do you know? Many a lot of people spent they will free time just watching TV, or playing video games all day long. If you would like try to find a new activity honestly, that is look different you can read a book. It is really fun to suit your needs. If you enjoy the book that you just read you can spent 24 hours a day to reading a e-book. The book Reducing the Vulnerability of Moldova's Agricultural Systems to Climate Change: Impact Assessment and Adaptation Options (World Bank Studies) it is rather good to read. There are a lot of people who recommended this book. We were holding enjoying reading this book. When you did not have enough space bringing this book you can buy the actual e-book. You can m0ore very easily to read this book from a smart phone. The price is not too expensive but this book has high quality.

Heather Stewart:

Playing with family within a park, coming to see the coastal world or hanging out with friends is thing that usually you will have done when you have spare time, then why you don't try issue that really opposite from

that. A single activity that make you not experience tired but still relaxing, trilling like on roller coaster you have been ride on and with addition info. Even you love Reducing the Vulnerability of Moldova's Agricultural Systems to Climate Change: Impact Assessment and Adaptation Options (World Bank Studies), you are able to enjoy both. It is excellent combination right, you still would like to miss it? What kind of hang type is it? Oh can happen its mind hangout fellas. What? Still don't have it, oh come on its known as reading friends.
