Law of the Sea, Environmental Law and Settlement of Disputes: Liber Amicorum Judge Thomas A. Mensah

This volume covers a variety of topics in the fields of the law of the sea and the protection of the environment. The particular focus of the volume is on the role and function of judicial, quasi-judicial and administrative institutions in the prevention and settlement of disputes in both of these areas. This includes an overview and insightful analysis of the cases of the International Tribunal for the Law of the Sea during its first decade. Further substantive issues range from the allocation of shared marine resources, maritime boundary delimitation and issues of maritime security to the prevention of marine pollution as well as a coverage of the compliance and enforcement mechanisms of international environmental law. The views from both scholars and practitioners perspectives presented in this volume will offer readers a number of outstanding intellectual synergies to reflect on the development of international law. It can provide both scholars and policy-makers alike with new insights on how to address pressing problems in international law, including ideas for improved institutional design. The work has been compiled in honour of Thomas A. Mensah and comprises 59 essays from leading scholars and practitioners in international law."
