## **Metallica: The Early Years and the Rise of Metal** Neil Daniels

Metallica's early success was built on strong live performances and fierce thrash metal riffs. With the remarkable passion and drive of drummer/founder Lars Ulrich, Metallica became the biggest American metal band in the world and the legacy of those first four albums - Kill 'Em All, Ride The Lightning, Master of Puppets and...And Justice for All - lives on to this day. American thrash metal produced four major bands - Metallica, Slayer, Megadeth and Anthrax - dubbed the Big Four, but out of that unholy collective, Metallica were kings. This book tells the story of how that remarkable global triumph started, with interviews with people who were there, saw those early gigs and numerous other eye-witnesses to the incredible story.

#### **Ellen Scherer:**

As a university student exactly feel bored to help reading. If their teacher questioned them to go to the library or to make summary for some publication, they are complained. Just very little students that has reading's spirit or real their interest. They just do what the educator want, like asked to the library. They go to there but nothing reading really. Any students feel that reading is not important, boring in addition to can't see colorful images on there. Yeah, it is for being complicated. Book is very important for yourself. As we know that on this era, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore this Metallica: The Early Years and the Rise of Metal can make you truly feel more interested to read.

#### **Russell Pittman:**
