Ocean Engineering and Designing for the Deep Sea (Engineering in Action)

Rebecca Sjonger

Ocean Engineering and Designing for the Deep Sea (Engineering in Action) Rebecca Sjonger

Working in oceans presents unique challenges. Readers will learn how ocean engineers design equipment and processes to help scientists that study ocean systems, such as oceanographers, do research in deep waters, long distances away from land, and in harsh weather conditions. Ocean engineers come up with innovative solutions to these challenges by designing submersible vessels, structures built offshore, monitoring devices, and communication systems. Real-life examples and a design challenge help students understand key concepts related to the engineering process.
