Cyber Terrorism and Information Warfare: Threats and Responses (Terrorism Library Series) Yonah Alexander
Cyber terrorism is an emerging new mode of information warfare underscoring the perpetrators' deliberate exploitation of civilian and military systems' inherent vulnerabilities, thereby affecting national and global security. This volume includes contributions made by academics, policymakers, and professionals at seminars and conferences co-sponsored by the International Center for Terrorism Studies (Potomac Institute for Policy Studies), and the Terrorism Studies Center (The George Washington University), during the past several years. It also includes statements by key government officials and industry experts at different forums in the United States dealing with both threats and responses.
