If you are bored with easy word search puzzles, and if a challenge is what you want, then you are looking at a puzzle book made just for you. The first thing you need to know is that there are no solutions provided for these puzzles. Not only does this allow me to provide more puzzles but it also means that you have to keep plugging away until you find all the words in each list. Now on to the lists...many of these words will be unfamiliar to you, including subjects such as towns and villages from all around the world, technical terms, Latin words, names from around the globe and made up words. The words are arranged vertically, horizontally and diagonally. They can read forwards and backwards and can, at times, overlap. Formatted in 24 point Verdana this book will provide hours of fun for anyone with very poor eyesight who wants more of a challenge than conventional word search puzzles can deliver. No other puzzle book can give you such an eclectic mix of unfamiliar words and you will be out of your comfort zone right from the start. However, being the word search champion that you are, you will eventually find every last word and have a lot of fun along the way.
