The question, "Where is the United States in Bible Prophecy?" is one that has been asked by teachers and students of the Bible for many years. Some say one thing and some another. Many say that the most prosperous and powerful nation in the history of the world, and the only nation founded upon Christian principles, is nowhere to be found in the Bible. The author respectfully disagrees with that conclusion. The problem is that most Bible students have used an invalid starting point for their search. They begin with the United States, searching for scriptures that might apply to her. The result is either no success, or scriptures that they think might refer to America. "Where is the United States in Bible Prophecy?" takes a different approach to this timeless question, arriving at a most amazing and eye-opening conclusion, finding the United States where you might least expect to find her.
