## **When Getting Rich Quick Just Isn't Fast Enough!**

Many day trading books on the market today contain dubious advice, but never before has there been a book guaranteed to contain *100 percent dubious advice*--until now.

*The Trillionaire Next Door* is that book. Inside you'll find:

1. The rock-solid, scientific principles of day trading explained in language so clear and concise it's almost insulting
2. A glossary of key economic terms for the day trader, like "mousepad" and "click"
3. Advice for the long-term investor: which stocks to hold in your portfolio for five, ten, fifteen minutes or more
4. Confusing, meaningless graphs and charts
5. Bad math
6. And much, much more--but since day traders have short attention spans, not too much more

"If *The Trillionaire Next Door* were a stock, I'd buy it, sell it, buy it, sell it, and buy it again--it's that good!"

--Stacy Gellman, day trader
