Inventions and Inventing for Gifted Students (Practical Strategies Series in Gifted Education) Frances Karnes Ph.D., Kristen Stephens Ph.D., Thomas Hebert Ph.D.

Applying creative thinking skills and a knowledge of a field of study to create exciting inventions is at the heart of the inventing process. This guide offers a practical introduction to the inventing process: getting students interested in inventing, teaching the inventing process, patenting new product ideas, participating in inventions conventions and competitions, and an extensive listing of print and Web-based resources. This is one of the books in Prufrock Press' popular *Practical Strategies Series in Gifted Education*. This series offers a unique collection of tightly focused books that provide a concise, practical introduction to important topics concerning the education of gifted children. The guides offer a perfect beginner's introduction to key information about gifted and talented education.
