Parallel and Distributed Computing: Applications and Technologies: 5th International Conference, PDCAT 2004, Singapore, December 8-10, 2004, Proceedings (Lecture Notes in Computer Science)

The 2004 International Conference on Parallel and Distributed Computing, Applications and Technologies (PDCAT 2004) was the 5th annual conference, and was held at the Marina Mandarin Hotel, Singapore on December 8–10, 2004. Since the inaugural PDCAT held in Hong Kong in 2000, the conference has become a major forum for scientists, engineers, and practitioners throughout the world to present the latest research, results, ideas, developments, techniques, and applications in all areas of parallel and distributed computing. The technical program was comprehensive and featured keynote speeches, technical paper presentations, and exhibitions showcased by industry vendors. The technical program committee was overwhelmed with submissions of papers for presentation, from countries worldwide. We received 242 papers and after viewing them, based on stringent selection criteria, we accepted 173 papers. The papers in the proceedings focus on parallel and distributed computing viewed from the three perspectives of networking and architectures, software systems and technologies, and algorithms and applications. We acknowledge the great contribution from all of our local and international committee members and reviewers who devoted their time in the review process and provided valuable feedback for the authors. PDCAT 2004 could never have been successful without the support and assistance of several institutions and many people. We sincerely appreciate the support from the National Grid Office and IEEE, Singapore for technical co-sponsorship. The financial sponsorships from the industrial sponsors, Hewlett-Packard Singapore; IBM Singapore; Sun Microsystems; SANDZ Solutions; Silicon Graphics, and Advanced Digital Information Corporation, are gratefully acknowledged.

From reader reviews:

Donovan Pena:

Reading a reserve tends to be new life style in this era globalization. With examining you can get a lot of information that will give you benefit in your life. Along with book everyone in this world could share their idea. Books can also inspire a lot of people. A lot of author can inspire all their reader with their story or their experience. Not only situation that share in the guides. But also they write about the data about something that you need example of this. How to get the good score toefl, or how to teach your children, there are many kinds of book that exist now. The authors on earth always try to improve their expertise in writing, they also doing some research before they write for their book. One of them is this Parallel and Distributed Computing: Applications and Technologies: 5th International Conference, PDCAT 2004, Singapore, December 8-10, 2004, Proceedings (Lecture Notes in Computer Science).

Louise Hawkins:

Reading can called brain hangout, why? Because if you are reading a book mainly book entitled Parallel and Distributed Computing: Applications and Technologies: 5th International Conference, PDCAT 2004, Singapore, December 8-10, 2004, Proceedings (Lecture Notes in Computer Science) your head will drift away trough every dimension, wandering in each and every aspect that maybe unfamiliar for but surely might be your mind friends. Imaging each word written in a publication then become one application form conclusion and explanation that maybe you never get prior to. The Parallel and Distributed Computing: Applications and Technologies: 5th International Conference, PDCAT 2004, Singapore, December 8-10, 2004, Proceedings (Lecture Notes in Computer Science) giving you another experience more than blown away your brain but also giving you useful data for your better life in this era. So now let us show you the relaxing pattern the following is your body and mind will likely be pleased when you are finished reading through it, like winning a casino game. Do you want to try this extraordinary paying spare time activity?

Bernice King:

Beside this specific Parallel and Distributed Computing: Applications and Technologies: 5th International Conference, PDCAT 2004, Singapore, December 8-10, 2004, Proceedings (Lecture Notes in Computer Science) in your phone, it could possibly give you a way to get closer to the new knowledge or info. The information and the knowledge you might got here is fresh through the oven so don't become worry if you feel like an outdated people live in narrow small town. It is good thing to have Parallel and Distributed Computing: Applications and Technologies: 5th International Conference, PDCAT 2004, Singapore, December 8-10, 2004, Proceedings (Lecture Notes in Computer Science) because this book offers for you readable information. Do you often have book but you rarely get what it's facts concerning. Oh come on, that will not end up to happen if you have this inside your hand. The Enjoyable set up here cannot be questionable, just like treasuring beautiful island. Techniques you still want to miss it? Find this book and read it from currently!

Jessie Orlando:

Reading a guide make you to get more knowledge from the jawhorse. You can take knowledge and information from your book. Book is prepared or printed or outlined from each source that will filled update of news. In this modern era like at this point, many ways to get information are available for an individual. From media social just like newspaper, magazines, science reserve, encyclopedia, reference book, novel and comic. You can add your understanding by that book. Isn't it time to spend your spare time to spread out your book? Or just seeking the Parallel and Distributed Computing: Applications and Technologies: 5th International Conference, PDCAT 2004, Singapore, December 8-10, 2004, Proceedings (Lecture Notes in Computer Science) when you desired it?
