Learn Java in One Day and Learn It Well (Learn Coding Fast) (Volume 4) Jamie Chan

New Book by Best-Selling Author Jamie Chan. Learn Java Programming Fast with a unique Hands-On Project. Book 4 of the Learn Coding Fast Series.

Have you always wanted to learn computer programming but are afraid it'll be too difficult for you? Or perhaps you know other programming languages but are interested in learning the Java language fast?

This book is for you. You no longer have to waste your time and money trying to learn Java from boring books that are 600 pages long, expensive online courses or complicated Java tutorials that just leave you more confused and frustrated.

What this book offers...

Java for Beginners

Complex concepts are broken down into simple steps to ensure that you can easily master the Java language **even if you have never coded before.**

Carefully Chosen Java Examples

Examples are carefully chosen to illustrate all concepts. In addition, the output for all examples are provided immediately so you do not have to wait till you have access to your computer to test the examples.

Careful selection of topics (Covers Java 8)

Topics are carefully selected to give you a broad exposure to Java, while not overwhelming you with information overload. These topics include object-oriented programming concepts, error handling techniques, file handling techniques and more. In addition, new features in Java (such as lambda expressions and default methods etc) are also covered so that you are always up to date with the latest advancement in the Java language.

Learn The Java Programming Language Fast

Concepts are presented in a "to-the-point" style to cater to the busy individual. You no longer have to endure boring and lengthy Java textbooks that simply puts you to sleep. With this book, you can learn Java fast and start coding immediately.

How is this book different...

The best way to learn Java is by doing. This book includes a unique project at the end of the book that requires the application of all the concepts taught previously. Working through the project will not only give you an immense sense of achievement, it'll also help you retain the knowledge and master the language.

Are you ready to dip your toes into the exciting world of Java coding? This book is for you. Click the "Add to Cart" button and download it now.

What you'll learn:

Introduction to Java - What is Java? - What software do you need to code Java programs? - How to install and run JDK and Netbeans?

Data types and Operators - What are the eight primitive types in Java? - What are arrays and lists? - How to format Java strings - What is a primitive type vs reference type? - What are the common Java operators?

Object Oriented Programming - What is object oriented programming? - How to write your own classes - What are fields, methods and constructors? - What is encapsulation, inheritance and polymorphism? - What is an abstract class and interface?

Controlling the Flow of a Program - What are condition statements? - How to use control flow statements in Java - How to handle errors and exceptions - How to throw your own exception

and Others... - How to accept user inputs and display outputs - What is a generic? - What are lambda expressions and functional interface? - How to work with external files ...and so much more....

Finally, you'll be guided through a hands-on project that requires the application of all the topics covered.

Click the BUY button at the top of this page now to start learning Java. Learn it fast and learn it well.

From reader reviews:

Hallie Cathey:

Have you spare time for any day? What do you do when you have a lot more or little spare time? Yeah, you can choose the suitable activity intended for spend your time. Any person spent all their spare time to take a move, shopping, or went to the Mall. How about open or maybe read a book allowed Learn Java in One Day and Learn It Well (Learn Coding Fast) (Volume 4)? Maybe it is being best activity for you. You know beside you can spend your time with your favorite's book, you can smarter than before. Do you agree with its opinion or you have additional opinion?

Marcos Anderson:

In this 21st centuries, people become competitive in each way. By being competitive now, people have do something to make these people survives, being in the middle of typically the crowded place and notice by surrounding. One thing that oftentimes many people have underestimated this for a while is reading. Yep, by reading a guide your ability to survive improve then having chance to stand than other is high. For you personally who want to start reading a book, we give you this specific Learn Java in One Day and Learn It Well (Learn Coding Fast) (Volume 4) book as nice and daily reading book. Why, because this book is more than just a book.

James Jones:

Now a day those who Living in the era everywhere everything reachable by talk with the internet and the resources in it can be true or not require people to be aware of each information they get. How a lot more to be smart in obtaining any information nowadays? Of course the answer then is reading a book. Looking at a book can help persons out of this uncertainty Information especially this Learn Java in One Day and Learn It Well (Learn Coding Fast) (Volume 4) book because this book offers you rich info and knowledge. Of course the data in this book hundred percent guarantees there is no doubt in it as you know.

Betty Johnston:

Many people spending their moment by playing outside along with friends, fun activity with family or just watching TV the entire day. You can have new activity to pay your whole day by reading a book. Ugh, ya think reading a book will surely hard because you have to accept the book everywhere? It ok you can have the e-book, having everywhere you want in your Touch screen phone. Like Learn Java in One Day and Learn It Well (Learn Coding Fast) (Volume 4) which is getting the e-book version. So , try out this book? Let's find.
