Medical-Surgical Nursing: Clinical Reasoning in Patient Care Plus MyNursingLab with Pearson eText -- Access Card Package (6th Edition) Priscilla T LeMone, Karen M. Burke, Gerene Bauldoff RN PhD FAAN, Paula Gubrud

NOTE: Before purchasing, check with your instructor to ensure you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, and registrations are not transferable. To register for and use Pearson's MyLab & Mastering products, you may also need a Course ID, which your instructor will provide.

Used books, rentals, and purchases made outside of Pearson

If purchasing or renting from companies other than Pearson, the access codes for Pearson's MyLab & Mastering products may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase.

Medical-Surgical Nursing: Clinical Reasoning in Patient Care , Sixth Edition is appropriate for courses in medical-surgical nursing. It also serves as a helpful reference for practicing nurses.

This package includes MyNursingLab®

Improving clinical reasoning; focusing on what a new nurse needs to know

Medical-Surgical Nursing provides readers with all of the practical knowledge and skills they need to care for adult patients—without overwhelming readers with unnecessarily dense writing that is beyond the beginning nurse's scope of practice. Carefully selected content focuses on the things that new nurses will need to know when they first enter practice: how to promote health, facilitate recovery from illness and injury, and provide support when coping with disability or loss. Throughout the text, the authors focus on individualized holistic nursing care as the essential element in learning and practicing nursing, regardless of the gender, age, race, culture, or socioeconomic background of the patient or practitioner. Readers are given the tools they need to develop their clinical reasoning abilities so that they can make safe and effective decisions on the job. With its understandable language, visual approach, and consistent teaching and learning format, it's no surprise that readers overwhelmingly report that they truly *like* reading this text.

Medical-Surgical Nursing for MyNursingLab® is an online homework, tutorial, and assessment program that engages students in learning. It helps students move beyond memorization to true understanding through application—resulting in better performance in the course—and provides educators with a dynamic set of tools for gauging individual and class progress.

Teaching and Learning Experience

To provide a better teaching and learning experience, for both instructors and students, this program will help:

- **Improve Results:** MyNursingLab better prepares students for the classroom, and beyond.
- **Develop Clinical Reasoning Skills for Today and Tomorrow:** Students are encouraged to think creatively and critically about patient care.
- **Visualize Pathophysiology:** A highly-visual presentation of the underlying pathophysiology of disease helps bring the content to life, enhancing students' understanding and aiding in clinical application.
- **Focus on Nursing Care:** The authors emphasize holistic, individualized care for all patients.
