Customer review by Joe on Amazon.co.uk. "Fun and educational book to help teach kids to think outside the box when they start to learn money. Could also benefit adults and encourage them to change their way of thinking."

Aimed at young readers, this enchanting, little children's book will engage readers from 3 to 9 years old in its magic and fun!

The Child Who Finds Money - Teaching Kids About Money, is a story wrapped in a manual showing how to teach kids about money, in an unusual and fun way. I like to write Children's Books that teach adult concepts to children because they are our future. Whilst they still have the reception and curiosity and have not yet drunk from the poison chalice of scepticism. I have managed to retain these and it has served me well all my days. Teaching money and how to teach kids about money is best done in the telling of tales and money games in kids books. As this is the right heartset of fun, playfulness and excitement.
