PrestaShop Module Development Fabien Serny

Develop and customize powerful modules for PrestaShop 1.5 and 1.6

About This Book

- Create and customize PrestaShop modules quickly and easily
- Provide a strong foundation in module development for developers who are new to PrestaShop
- Explore the advanced features of PrestaShop with clear and practical instructions

Who This Book Is For

If you are a developer who is new to PrestaShop and wants to get a good foundation in development on the PrestaShop framework, this book is for you. It's assumed that you will have some experience with PHP5, jQuery, and HTML/CSS (no need to be an expert on it).

What You Will Learn

- Code your own module from scratch
- Explore best practices for database table creation
- Use hooks or implement overrides
- Discover the many native methods available in PrestaShop
- Make new administration tools
- Create fully functional payment modules
- Develop carrier modules
- Secure and optimize your modules
- Build functionalities compliant with the multistore feature

In Detail

The number of e-commerce websites has drastically increased in these past few years. Building your own web store is a complex and expensive task; that's why open source solutions such as PrestaShop have become so successful in tackling this issue. The main interest with open source solutions is that you can easily add or edit features by creating modules.

This practical, hands-on guide provides you with a number of clear, step-by-step exercises to help you understand how PrestaShop works, and also help you add and edit features.

Starting with the basics, this book takes you through complete module development in an effective manner. You will learn about module architecture, what a hook is, and how to use it to add functionalities to PrestaShop. You will also see how to build payment and carrier modules and make your module multistore-ready. Develop PrestaShop modules the right way and make them secure and compliant with different versions of PrestaShop.

From reader reviews:

Angela Dreiling:

Reading can called brain hangout, why? Because if you are reading a book specially book entitled PrestaShop Module Development your brain will drift away trough every dimension, wandering in every single aspect that maybe not known for but surely can become your mind friends. Imaging each and every word written in a guide then become one form conclusion and explanation that maybe you never get just before. The PrestaShop Module Development giving you a different experience more than blown away your thoughts but also giving you useful details for your better life in this particular era. So now let us show you the relaxing pattern here is your body and mind are going to be pleased when you are finished looking at it, like winning a casino game. Do you want to try this extraordinary spending spare time activity?

Jennifer Wadsworth:

Are you kind of stressful person, only have 10 or perhaps 15 minute in your time to upgrading your mind ability or thinking skill also analytical thinking? Then you are experiencing problem with the book compared to can satisfy your limited time to read it because pretty much everything time you only find publication that need more time to be read. PrestaShop Module Development can be your answer given it can be read by you actually who have those short spare time problems.

Josefina Roundtree:

On this era which is the greater individual or who has ability in doing something more are more special than other. Do you want to become one of it? It is just simple approach to have that. What you are related is just spending your time not much but quite enough to experience a look at some books. One of several books in the top checklist in your reading list is usually PrestaShop Module Development. This book that is certainly qualified as The Hungry Hills can get you closer in turning out to be precious person. By looking right up and review this publication you can get many advantages.

Evelyn Ross:

As a pupil exactly feel bored to reading. If their teacher expected them to go to the library as well as to make summary for some e-book, they are complained. Just minor students that has reading's soul or real their pastime. They just do what the instructor want, like asked to the library. They go to at this time there but nothing reading really. Any students feel that studying is not important, boring and also can't see colorful photographs on there. Yeah, it is for being complicated. Book is very important for yourself. As we know that on this period, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. So , this PrestaShop Module Development can make you really feel more interested to read.
