## **The Moon: Myth and Image** Jules Cashford

With its subtle light illuminating the night sky, the Moon has always been an object of fascination, from its phoenixlike cycle of birth and death to its association with the female body and fertility. Jules Cashford explores the myths, symbols, and poetic images of the Moon throughout history, starting from early Paleolithic markings on horn and bone, up to present-day poetry. This captivating book traces our customs and secular events back to their sacred lunar source explaining how we have evolved to think in some of the ways that we do and why. Accompanied by 175 beautiful illustrations, *The Moon* investigates how the lunar image helped shape our mind, and more importantly, it examines what these myths and images tell us about our own consciousness. This is the most comprehensive and in-depth look at the moon and its vast influence on the structure and function of mythology, religion, and consciousness.

It should be here for anyone. So , don't miss that! Just read this e-book type for your better life and knowledge.

#### Susan Parker:

As a university student exactly feel bored to help reading. If their teacher asked them to go to the library in order to make summary for some e-book, they are complained. Just minor students that has reading's heart or real their pastime. They just do what the professor want, like asked to go to the library. They go to at this time there but nothing reading significantly. Any students feel that looking at is not important, boring as well as can't see colorful photos on there. Yeah, it is being complicated. Book is very important for you. As we know that on this age, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore , this The Moon: Myth and Image can make you truly feel more

interested to read.
